New Drinking Fountain

Thanks to the State of Minnesota and the Emergency Services Program COVID-19 Response (ESP-CV) Funds, you will notice a change around the shelter. The current water fountains will be replaced by Elkay hands-free water bottle filling stations. This will help reduce the need to touch common areas in order to get your filtered water.

Note: The first water fountain to be replaced will be on the first floor in the ice machine room, by the front desk. As facilities receives other stations; the lunch room, 2nd floor, and 3rd floor water fountains will be replaced.

A **HUGE Thank You** is in order for the voices of guests, who have asked if there was a way to give guests touch-free access to filtered water.
