PEOPLE SERVING PEOPLE
2020 Annual Report

Opened in 1982, People Serving People focuses on ending family homelessness in Hennepin County.

We will continue to offer prevention, empowerment, and educational services until every family has a place to call home.

OUR VISION

Healed families. Transformed communities.

OUR MISSION

We exist to see families thrive.

**People
Serving
People**

**Center of
Excellence**

Dear People Serving People Family,

We started off 2020 by responding to the aftermath of the fire at the Drake Hotel, an overflow site for the Hennepin County's family shelter system. From the Drake Hotel fire in January, to the onset of the pandemic in March, and a racial reckoning in our community in June, our people — staff, families, volunteers, and donors — have continuously adapted. While nearly everything about how we shelter, nourish, and support families has changed, our core mission and nature has not. We prioritize the health and safety of families, as well as the continuity of our services. Good planning, creativity, perseverance, and tremendous support from the community helped us see our way through the first year of the pandemic.

Amid all of this, the People Serving People Board hired me as the organization's next CEO in late November. And it has been a privilege to engage in this work — hard in the moment, rewarding, and urgent. While societal challenges permeate our walls, I see our families, staff, and volunteers rise with resourcefulness and resilience to navigate through crisis. It isn't always pretty in the moment, but the life and stability being built for the long-term is beautiful. I do this work because the racial disparities in housing and education are unacceptable and when the experiences of Black and Indigenous families and children improve, so will my own son's experience and that of all of our children. The road is long, so pack snacks and let's do it together.

None of this would be possible without the incredible support of our community of donors, partners, and volunteers. THANK YOU for your generosity, compassion, and all the masks! I have been humbled and floored by the ways in which you all showed up for our families in 2020 as you too were navigating the uncertainty of the year. Thank you!

Sincerely,

Rinal Ray, CEO and Board Member

Programs

While our programs might have looked a bit different in 2020, racial equity and family empowerment has remained at the center of our work.

Family Services

Prevention: Families need and deserve to stay in their homes. Through our new prevention program, families receive the support and financial resources they need to remain stable.

Shelter: For families who are experiencing homelessness, we offer 99 private, hotel-style rooms where they can safely stay. Families receive meals, enjoy activities, and participate in support groups if desired.

Advocacy: Families work one-on-one with advocates to identify and address barriers. Using a strengths-based approach, families choose how they want to be supported in their journeys to stability. From help finding housing to searching for jobs to accessing mental health care, advocates are there for families.

Supportive Housing: For families facing multiple barriers to independent housing, we offer 10 two-bedroom apartments designed for longer stays. Families are able to have a more home-like environment while still participating in on-site programs and services.

Systems Change

The lives and experiences of our shelter guests are shaped by the interconnected systems with which they interact. Often these systems create and perpetuate racial, economic, and educational disparities, among others.

We engage in issue advocacy and public policy to inform lawmakers on the barriers our community faces, helping educate our community on issues related to accessible and high-quality childcare, affordable housing, family healing, and systems inequities.

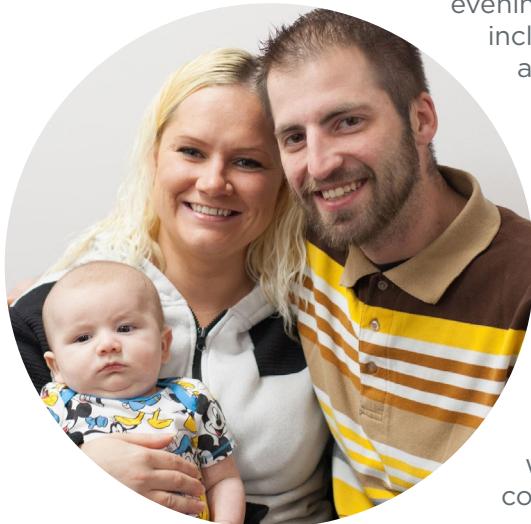

Education

Early Childhood Development: Located at our shelter, our licensed, 4-Star Parent Aware and Nationally Accredited (NECPA) program serves our youngest guests. Babies, toddlers, and preschool-age children thrive with developmentally appropriate curriculum focused on healthy growth and kindergarten readiness.

Center of Excellence: Located in the Phillips neighborhood of Minneapolis, our CoE is also a 4-Star Parent Aware and Strong Beginnings designated site. The CoE continues high-quality childcare for families leaving our shelter and families in the community seeking high-quality care. With small class sizes, the CoE offers high-quality early childhood and school-age programming.

K-12 Programs: Our afterschool and evening programs for youth include tutoring and enrichment activities that promote social, emotional, intellectual, and physical growth.

Parent Engagement:

Parents are key to healthy child growth. People Serving People partners with parents to discuss child development, parenting resources, behavior management, as well as connecting to other community resources.

2020 Reflections

Drake Hotel Fire

On Christmas Day 2019 the Drake Hotel, an overflow site for Hennepin County's family shelter system, burned down. The fire displaced hundreds of individuals and families and eliminated all of People Serving People's family shelter overflow capacity.

Even before the flames were extinguished, our community rallied together to provide shelter and comfort to those impacted by the fire. People Serving People's staff raced to reconfigure our facility to accommodate more families and partnered with Hennepin County to assist families scattered in hotels around the metro area. Supported by our generous donors, our staff worked tirelessly to support the survivors.

Thank you
to everyone
for helping us and
our community
through 2020!

COVID

Throughout the pandemic, our focus has remained the same — to keep our guests, staff, and volunteers healthy. While this has meant we must be physically farther apart and are missing moments of fun and togetherness, we have also only had a handful of COVID cases over the past year. We assisted students in virtual learning from the shelter, delivered meals to rooms instead of coming together in the dining hall, and had to temporarily say goodbye to our volunteers. Until we can safely be together again, we must put the health of our guests, staff, and volunteers first.

Community Unrest

On May 25, 2020, Mr. George Floyd was murdered by a now-former Minneapolis police officer. While police brutality is far from a new issue and communities, especially the Black community, have been fighting for justice for decades, the taped act led to weeks of unrest and eventually, a conviction. During this time, our staff worked diligently to ensure the physical safety of our guests while also responding to the historic and emotional trauma that everyone was feeling in different ways. People Serving People continues to center racial justice in its work and services. The lessons from this year will carry on for many more to come.

Prevention

At People Serving People, we are committed to being a dedicated leader in homelessness prevention. Our goal is to break generational barriers, so families don't have to go through the recurrence of homelessness. We do that by helping families get their basic needs met, then providing them access to comprehensive services to move towards stability that address the root causes of homelessness.

We not only assist with programs and services to empower families with housing support and financial knowledge, but thanks to generous donors, we started a prevention program last year where we work with families that have left our shelter and families that are potentially facing homelessness. We designed our program by asking our guests — what would have kept you housed? The overwhelming majority of answers were: flexible, comprehensive assistance that listened to their true needs and goals. The program offers case management, financial help with unexpected costs, childcare navigation, rental assistance, among other things. We know many factors come into play when families are experiencing homelessness. We not only want to provide temporary shelter but empower families back to stability. Our dedicated prevention

Being at People Serving People gave me someone to talk to, someone to help me when I felt like giving up.

Krystal, former guest

advocate has served 17 families so far this year. At the end of the day, we understand homelessness is not the personal failure of an individual, but rather a community and systemic issue that we all have a stake in.
